

**Photo Feature**  
**The Volunteers of Aultmans Run Watershed**

**^^ These Volunteers Know How to Clean Up!**

**<< Now Everyone Knows Where Aultmans Run Watershed Is!**

**A Volunteer Takes A Water Sample to >> Build a Record of Water Quality in the Watershed.**

**<< A Work Day By Association Members to Plant the SR 286 Treatment Project Wetland. And It Is Work!**

**What looks like a giant mud pie, became a functioning wetland that is now significantly reducing iron and other pollutants from the SR 286 discharge. >>**

**<< Doing a Kick-Sample to Record the Type and Number of Macroinvertebrates in the Stream, a Measure of Stream Health.**
